B.Tech Dr.J.J.Magdum Collage Engineering,Jaysingpur	84.00	2022
Diploma DKTE'YCP, Ichalkarnji	65.13	2019
SSC J.A. High School Sangli	73.00	2015

PROJECT:**Role: Backend Developer****Project: Housing Society****Team Size: 02**

Description: The Housing Society project aims to streamline the management and operations of residential communities by providing a centralized platform for communication, administration, and resource management. It facilitates efficient handling of tasks such as maintenance requests, financial management, event organization, and member communication within the housing society.

Responsibilities:

- Develop a user-friendly web application for managing housing society operations.
- Implement features for member registration, profile management, and authentication.
- Design and integrate modules for handling maintenance requests, complaints, and feedback from residents.
- Create a dashboard for administrators to monitor finances, track expenses, and manage dues and payments.
- Incorporate communication tools such as messaging systems and notices to facilitate effective interaction among residents and management.
- Ensure data security and privacy by implementing robust authentication and authorization mechanisms.
- Integrate payment gateways for online transactions related to maintenance fees, amenities booking, etc.
- Provide support and training to users for effectively utilizing the platform.
- Collaborate with stakeholders to gather requirements, analyze feedback, and continuously improve the application.
- Stay updated with emerging technologies and industry trends to enhance the functionality and usability of the housing society management system.

Environments and tools: J2EE, React, MySQL**EXPERIENCE & ACHIEVEMENTS:**

- ❖ Currently contributing as a Full-Stack Developer at Visa Softwares, responsible for developing and maintaining end-to-end web applications, including both front-end and back-end functionalities.
- ❖ Successfully completed a one-month internship as a Java Developer at TechnoEduTech Company.
